

12. High Power Horn for cricket Final at PKNS field

unexpectedly turned up to watch the semi-final and final played at TNB and PKNS fields respectively, sitting nearly all round the fields. As a result, additional high power horns and two way speakers, (see photo no. 12 and 13), had to be added to achieve good sound coverage. All these had to be done in a hurry and all staff had to work extra hard to complete the installations on time for the next competition.

CONCLUSION

The 16th Commonwealth Games had finally been concluded on Sept 21, 1998 with resounding accolades from Federations, dignitaries, sporting bodies, officials, participants and the media. And the sound reinforcement systems used in all the venues, both sports and non-sports venues, had functioned satisfactorily without any hitch or failure throughout the whole Games.

On Sept 30, 1998, Col. Mohammad Sapari Sarkawi, Director of the Technology Department of SUKOM 98, wrote a letter to the writer with the following words "I wanted you to know how much we appreciate the faith, co-operation and commitment you have shown as Sound and Acoustics Consultant for the XVI Commonwealth Games. The works that you have done for us in the past few months have been very tremendous and challenging. Thank you for a job well done!"

ACKNOWLEDGEMENT

The writer wishes to thank Col. Mohammad Sapari Sarkawi, Director of Technology Department of SUKOM 98,

for permission to publish this article and also for his advice given over the past two years. He also would like to extend his gratitude to Major Asnan Ismail, the Manager of Electronics Services & Infrastructure of Technology Department, for his valuable guidance given to him from time to time. In addition, thanks also go to all the colleagues, volunteers, system operators and rental contractor's workers, who were involved in the Games, in particular to Captain Rusli Bin Hassan & Mr. Kam Chee Thong of the Technology Department, and Mr. Chiam Swee Aun & Mr. C.G. Ang of the rental company. Their commitment, hard-working and supportive efforts had, in one way or another, made the writer's responsibilities and problems less of an ordeal than they usually were. ♦
